Q.—What movie star is Jack Dempsey courting in "Whirlwind" fashion in Los Angeles?

A.—When Jack Dempsey finished his brief engagement with M. Carpenter he immediately started for Los Angeles. And here is the big surprise—the pliant Bobe Daniels is the cause of his hurried cross-country trip. Since his arrival on the coast the couple have been inseparable, dancing, swimming, playing and automobiling together. Before Jack's advent on the scene, the studio matchmakers had it all figured out that Harold Lloyd was going to be the lucky man. Still another interesting fact is that Jack and Harold are old friends. Lloyd having recently given a party for Jack.

Q.—How long has Tom Santschi been in movies?

A.—Tom recently celebrated the anniversary of his fifteenth year in the movies. He began with the old Bell company, some of his early pictures being "The Crisis" and "The Garden of Allah." He was born in Kokomo, Indiana, and now lives at 1523 Melchior street, Los Angeles, California.

Q.—When is Bill Hart going to return to the movies?

A.—Although Bill "retired" almost a year ago he is now planning a comeback next February. He said

he plans to make four pictures a year at least half of which will be westerns. With the censors so busy in many cities cutting out revolver, hold-up and shooting scenes it is somewhat difficult to put on the old westerns with their thrills and fights.

Q.—How many fan letters do the Talmadge sisters receive a month?

A.—Norma and Constance get 4,000 letters a month. Norma receives about three-fourths of these, due to the fact that she has been in pictures longer and is more heavily featured. Norma seems to be the idol of the young American girl, and the majority of her letters are from women. Constance receives more mail from men and hardly a day passes but that she gets several proposals by mail.

Q.—What very famous movie character actor played the part of Simon Legree in an all-star revival of "Uncle Tom's Cabin" in 1904?

A.—It was none other than our good friend, Theodore Roberts.

carefully laid, the attackers being summoned by the blowing of whistles.

Although Bill "retired" almost a year ago he is now planning a comeback next February. He said

Sims Fellers rallied and the fighting spread through the streets. Policemen were rushed to the scene, but were unable to do anything with their riot clubs. The mobs were not dispersed until the police fired a fusillade from their service pistols.

### Bombs Are Used.

Belfast, Aug. 23.—Blowing in which many shots were fired and bombs were used, broke out early today in Queen street. The trouble began with a clash between Sims Fellers and unionists. Shooting occurred for several hours and the street lights and many windows were demolished. In the darkness the police could not distinguish the attackers from the attacked and were compelled to charge indiscriminately through volleys of bullets. The bombs were home-made affairs and failed to explode.

### Some Are Helpful.

London, Aug. 23.—Incentive discussions of the English peace offer were under way at Dublin, today.

In addition to another secret executive session of Dail Eireann, the call was issued for a general conference of political, industrial and clerical leaders for a canvass of the peace situation. British officials were

more than usually hopeful that the parleys would lead to progress towards a settlement.

The morning papers commented in an optimistic vein. The Daily Telegraph, which is working for an immediate referendum, printed a number of interviews with Irishmen—Sinn Feiners and others—in support of a referendum.

The real peace party in Ireland is not made up of members of the British republican army," said the Daily Telegraph in its editorial comment.

The Morning Post, chief organ of the Tories, headed its editorial comment: "Come out from among them." The editorial said, in part: "Should the rebel Ulster despatch a reply, which is not a qualified acceptance, of the English offer proposed by Premier Lloyd George, all honest men of the conservative party should sever connection with the British government. Further discussions will only lead to further surrenders on the part of the government."

The arrest was made by direction of federal authorities who requested that his bond be placed not lower than \$25,000. He will be given preliminary hearing today.

Strader was formerly in the real estate business here and promoted a belt line project for the city.

### IS UNDER ARREST.

Akron, Aug. 23.—Charles K. Stroder is under arrest here today, in connection with the \$1,000,000 bond swindle in Chicago.

The arrest was made by direction of federal authorities who requested that his bond be placed not lower than \$25,000. He will be given preliminary hearing today.

## DEATH UNSEALS A LIFE SECRET

Strange Double Life of a New York Man.

## TWO WOMEN GIVEN SORROWFUL SURPRISE

Both Married to Man and Living Happily in Ignorance of Situation.

New York, Aug. 23.—Death unsealed the secret of the strange dual life of Frank Eugene Bortol, and two women are still shaking their heads, today, in sorrowful surprise. Both are legally his widows. His wife who had married him four years ago and had helped him build up the Public Service Freight bureau, looked through his papers to see if there was a friend or distant relative who should be notified of his demise.

She ran across a letter addressed to C. Folsom, at South Bend, Indiana. It ended with the line, "give my love to sister Mary."

Mrs. Bortol had never heard of "Mary." Her husband had never spoken of any relatives. She wired Folsom. He wired back:

"Am starting at once for New York with my wife."

The dumfounded widow replied: "Mr. Bortol's wife is here."

But there arrived the next day Mr. Folsom and the sister of his wife, who for twenty-eight years had been known in Kansas City and South Bend, Indiana, as Mrs. Frank E. Bortol. The dead man had married her in June, 1893, when he was a hotel manager in Kansas City. She was Hattie Schwartz of Burlington. There never was a divorce. Nor was there the slightest hint to her that she was not "the only one," or that he had remarried. Painful and likely was the scene that ensued when Mrs. Bortol met Mrs. Bortol, wife, No. 1, told No. 2 how, for twenty years Bortol was a traveling salesman and at one time worked as a reporter on the Chicago Chronicle; how he was always loyal, loving and generous; how, since he went to New York, five years ago, he regularly paid her rent and sent her \$100 a month and only last Christmas gave her an automobile.

Folsom was not less amazed than the two women at the revelations concerning the strange life of his long-time friend and brother-in-law. Folsom runs a steel plant near Gary, Indiana.

Wife, No. 2, told No. 1 that she had gone to work almost instantly after Bortol started his bureau here, how they fell in love and went to Elkins, Maryland, and were married.

So sharp was the shock to No. 1 that she collapsed and the physician ordered her to return at once to her Indiana home.

Neither of the two women is inclined to surrender an iota of legal right. Both have enceas counsel.

## PAROLE BOARD GETS REQUESTS

Governor Wants Probe of Actions of Old Board.

## ASKS RETURN OF TWO FORMER PRISONERS

Davis Finds Dangerous Types of Lawbreakers Secure Liberty and Wants Reasons.

Columbus, Aug. 23.—Requests for a probe of the liberation of two non-habitual offenders from Cleve land, by the old clemency board, that employment of agents, tilted to obtain paroles be discontinued and that county advisory boards be named, are contained in a communication sent, today, by Governor Davis to the new state pardon and parole board.

The new board is expected to hold its initial session late today or tomorrow.

"In taking up your duties, I consider it imperative that you first act be the beginning of a searching investigation into the circumstances surrounding the liberation from the Ohio State penitentiary by the board of clemency—now non-existent—of some of the most dangerous types of lawbreakers," said the governor. "In order that the thoroughness of this inquiry may be promoted, I suggest that your board immediately revoke action of the clemency board in the cases of Walter Brandt—Cleveland burglar—and Leonard Lyons—Cleveland gunman—two notorious criminals who were freed from the penitentiary by the old board in the last days of its existence. And I recommend, further, that upon revocation of this action, you cause the necessary steps to be taken to bring Brandt and Lyons back for further investigation of their claims for parole. The public has a right to know what conditions led to the release of dangerous criminals of this kind, and your probe should reveal these facts to the people," continued Governor Davis.

"It is in my view that the granting of all pardons and paroles by your board should be restricted to the smallest number of clearly worthy cases. Stringent rules that will effectively safeguard the public interest in matters of parole should be adopted.

"I wish, also, to allude to a situation that I believe does not contribute to the just and beneficial operation of the parole system—the employment of paid agents to obtain paroles. Such practice should be discontinued in every way possible. "It should be a fundamental principle that each prisoner, regardless of his ability to employ someone to intercede for him, should have an equal chance for parole, based only on his own good behavior in prison, his past record and the likehood of his law-abiding conduct, if given him freedom," declared Governor Davis.

Annual Meeting.

Cedar Point, Aug. 23.—Nearly 400 officers of Ohio building-and-loan associations and other similar organizations are here today for the annual convention of the Ohio Building Association League, to be inaugurated with an executive session, tonight. John J. Stoddard, Columbus, is president and James A. Devine, Roxobel, secretary. Those already here declare that housing is the biggest problem of the day.

The convention ends Thursday evening.

Starling Lower Hurt.

Clifton Lower will leave this evening for Akron, where his brother, Starling Lower, formerly of Marion, was burned in a gasoline explosion and is now in a hospital there. How and when the accident occurred or how badly Mr. Lower was injured a letter received here failed to state. Mr. Lower has been connected with a garage in Akron.

Zachman, one of the four lay delegates from the Columbus district to the annual conference of the Evangelical church will attend the conference, to be held at Akron this week. The conference will open Wednesday and the appointments of ministers will take place Sunday afternoon.

Suffering from complications, due to hardening of the arteries, he had been an inmate of the hospital since August 12.

## LITTLETON IS NOW BELIEVED A SUICIDE

Involved in French Swindle Raid in Chicago.

Dayton, Aug. 23.—That W. C. Littleton, president of the Consolidated Automobile company here, threw himself into the lake at Chicago, is the belief of his brother, E. H. Littleton, here, following the big French swindle raid at Chicago. It is said that French assisted in the financing of the local company and took \$30,000 of the notes away to dispose of. Part was paid for by check, but the company has been notified that funds were tied up by the courts and today the \$30,000 in notes were returned by special mail.

Littleton's family went to Chicago a few days ago and obtained his personal effects, at the Morrison hotel, and say a note left indicates his intention to drown himself. He had been absent several weeks.

It is said that several other local concerns may be implicated in the deal. At the automobile company's office it was stated that the company may be nearly bankrupt as a result of the deal, although a hasty inventory indicates all obligations may be met. Business has not been suspended.

The new board is expected to hold its initial session late today or tomorrow.

"In taking up your duties, I consider it imperative that you first act be the beginning of a searching investigation into the circumstances surrounding the liberation from the Ohio State penitentiary by the board of clemency—now non-existent—of some of the most dangerous types of lawbreakers," said the governor. #### FALL WEATHER IS MAKING HEADWAY

A Gentle Reminder of What is To Come.

Summer is getting quite elusive, and after a flirtatious smile last Friday, she has skipped away, leaving a bright, breezy, bracing fall in her place and several overcoats were taken out of their summer quarters.

Autolists quite openly bundled up in their warmest things, and anybody who is out at night finds that the days of drifting in and out in cloud-like garments are over for a while.

And the hay fever—it has taken its toll of dispositions and among habitual sufferers there are but few who are not already sniffing and coughing and sneezing just like old times.

Soon school, regular work and a gradual cessation of these vacations which are so frequent now will change the world back into what was last spring, and most of the general public will be glad to see it done.

## CAPTAIN T. L. McMURRAY IS MILITARY AUTHORITY

One of Co-Authors of Textbook  
on Training.

### HE HOLDS COMMISSION IN INFANTRY SERVICE

Assistant Professor of Military  
Science and Tactics at Johns  
Hopkins University.

Here's a Marion boy that has  
gone rapidly to the front in a mili-  
tary way. He is Thomas L. McMurray,  
son of the late Commodore Thomas J. McMurray Marion sulks  
manufacturer.

Dr. James Wilson McMurray, a  
cousin, has received from the au-  
thor the first volume of the  
"Reserve Officers' Training Corps  
Manual," a textbook for the reserve  
officers' training corps, of which  
Thomas L. McMurray captain in-  
fantry, U. S. army, is a co-author.  
The books were written by Lieutenant  
Colonel P. S. Bond, engineers;  
Major E. B. Garey, Infantry; Lieu-  
tenant Colonel O. O. Ellis and Captain  
McMurray. The set consists of  
four volumes.

Contents of the first volume in-  
clude general information, military  
courtesy, Infantry drill regulations,  
rifle marksmanship, scouting and  
patrolling, physical training, individ-  
ual infantry equipment, Interior  
guard duty and wig wag and semi-

phone signaling. The volume, for  
the freshman or first year basic  
course, contains approximately 326  
pages and was published by the press  
of the Johns Hopkins University,  
Baltimore, Maryland.

#### Assistant Professor.

Captain McMurray now occupies  
the chair of assistant professor of  
military science and tactics at the  
Johns Hopkins University. He at-  
tended Culver Military Academy,  
Cornell University and the first and  
second Plattsburgh officers training  
camps.

When but fifteen years of age,  
Captain McMurray enlisted in the  
Ohio National Guard, having secured  
special permission to enter. He was  
a member of the state rifle team of  
fifteen men and was one of the best  
rifles shots in the world. He won  
first place at Culver and Plattsburgh  
and made an enviable record every  
time he entered a shoot.

At the beginning of the war Captain  
McMurray enlisted at Fort  
Benjamin Harrison, Indiana, and in  
June 1917, was made a second lieu-  
tenant.

#### Only Part of Day.

Three months later he was pro-  
moted to first Lieutenant and received  
his advancement on the same  
day that his commission as a second  
lieutenant arrived, having served in  
the lower rank only part of a day.  
In September of the same year he  
was made a captain. During the  
World War Captain McMurray was  
in the United States in the  
training camps and most of the time  
was at Camp Pennington, Columbus,  
Georgia. Part of the year 1917 he  
was at the army service schools,  
Fort Leavenworth.

For two years Captain McMurray  
has been teaching at Johns Hopkins  
University. Major E. B. Garey, hold-

ing the chair of professor of mill  
tactics science and tactics. This year  
Captain McMurray was at the citizen's  
military training camp at  
Plattsburgh.

After giving the names and  
records of the authors, the preface  
of the first volume states:

"It will be noted that this staff  
includes graduates of the leading  
service schools, officers who have  
served at the front on the staff and  
with the schools of the American  
Expeditionary forces. Officers who  
have established reputation and  
officers familiar by experience with  
the needs of the Reserve Officers'  
Training corps is those may be seen  
by the war college and by the pro-

fessor of military science and tac-  
tics science and tactics. This year  
Captain McMurray was at the citizen's  
military training camp at  
Plattsburgh.

## WITH THE POSS

WILLIE H. WILSON  
Columbus, August 21.—Football  
is important but other and smaller  
things concern the people of the around  
town. Jimmy Webb, Newark, football  
player, received his 100th postcard on  
July 21, 1934, from a boy in Marion.  
The boy, 11, is the son of the  
late George W. Webb, who  
lived in Marion for many years.

FRANKIE EXPLORED  
Columbus, Aug. 21.—Football for  
weight and appearance are expected  
to be present today at Friday's  
World's famous football  
weights and Dandy Football, rehearsal  
for the big game with the  
Browns, September 17. The Cleveland  
team, which has been training  
at Berea, will be in town to help  
make a picture for the first time.  
These contests are posted.

LOW NIGHT'S PRACTICE  
At Columbus—Edgar Paul,  
well-known radio host, selected  
Alfredine Brown, 18, of the  
round, for his radio show, "The  
Night's Practice," Sunday at 10.  
Alfredine, a student of Marion  
High School, has been a  
radio singer for two years.

AT NEW YORK—Harry  
Bentley, who is a favorite over Dutch Brink in  
the coming national tennis singles  
championship, will be in New York  
September 1, 1934, to play in the  
Cincinnati Open with Fred  
Cochran, September 3, will have a  
chance to be the international  
champion and should be consid-  
ered as the world's greatest player.

EDWARD COOPER,  
well-known radio host, de-  
fended his international title in the  
recent tournament at Wimbleton  
will be among the entries. He re-  
defended his national championship.  
Any player who beats him out by  
winning this title should be recogn-  
ized as the king of international  
tennis, as well, because the coming event  
will be the biggest international  
tennis ever staged, according to  
present indications.

In addition to America's best play-  
ers, there will be the members of the  
British, Australian, Japanese, Dutch  
and Indian tennis teams. All of  
these players have signed their in-  
tensions of competing with such play-  
ers as Tilden, Bill Johnson, Wilson  
Wachtel, Vincent Richards, R. H.  
Williams, Clinton Gardner, Sam  
Hardy, W. H. Davis of California  
and the Kinney brothers, also from  
the Pacific coast, joined against the  
foreign stars, the world's best will  
thrill enough to last throughout the  
week.

There is no doubt among the  
top players, French champion, B.  
C. Merton, South African star, and  
Manuel Alonso, great Spanish play-  
er, may make a flying trip across the  
Atlantic. Without these players  
however, the foreign entrants will  
be able to furnish some stiff opposition  
to the Americans.

Woolman, Lowe and Trubell, of  
the British Davis Cup team, will make  
a bid for the championship, as will  
Peach Todd, Hawken and Anderson  
of the Australian team.

WON'T DELAY OPENING  
OF SCHOOLS ONE WEEK

School Board Takes Stand It  
Would Disarrange Plans.

NOT ALL BUILDINGS  
WOULD BE READY THEN

Planned To Double Up—Miss  
Cast Resigns After Teaching  
Fifty-Two Years.

Marion city schools are to open  
Monday, September 5, according to  
a resolution passed by the board of  
education Monday night at an ad-  
journed meeting in the Harding  
High school building. The board  
authorized the purchase of approx-  
imately thirty desks for the new  
school rooms, domestic science  
equipment for the Central and Ver-  
non Heights Junior High schools,  
elected four teachers, arranged for  
the conversion of the auditorium in  
the Central Junior High school from  
a gymnasium, accepted the resigna-  
tions of three teachers authority to  
the construction of partitions in  
rooms in the Glenwood and Central  
Junior High school buildings, and  
approved an outline of the organiza-  
tion of the Central Junior High  
school presented by the superinten-  
dent of schools Dr. H. R. McVay.

Passage of the resolution pro-  
vided for the opening of schools on  
Labor day came after a discussion of  
the advisability of delaying the  
opening one week because of the pos-  
sibility of the new buildings not be-  
ing completed. This brought ob-  
jections on the ground that a delay  
would disarrange the entire pro-  
gram for the year and board mem-  
bers expressed the opinion that even  
though the buildings were not com-  
pleted, temporary arrangements  
could be made to care for the pupils  
until the schools are ready.

Say 'Twill Be Ready.

It was stated that the Vernon  
Heights building will be ready for  
use for the opening of schools al-  
though there may be some work  
to be done on it. Board members  
were of the opinion that if there are  
any delays they will be in the com-  
pletion of the Central and Main  
street buildings.

Among the resignations accepted  
was that of Miss Abigail Gast, a  
first-grade teacher, who has taught in  
the Marion schools for thirty-four years. Miss Gast has been a  
teacher for fifty-five years and be-  
gan her teaching career at the age  
of fourteen years in Delaware county  
at \$15 a month. She resigned  
to take advantage of the benefits of  
retirement by the teachers' retirement  
law and in accepting the resignation  
the school board passed a resolution  
authorizing the clerk to "congress on
